

THE HERALD.

C. F. T. SUTTON, Associate Editor.
WEDNESDAY, OCT. 5, 1881.

Donkey, soliloquizing: "The shades of October are upon us. Arthur should remember October. October in Indiana. Last October."

MR. J. W. WHITE, of McLean county, has been appointed sheriff to fill out the unexpired term of Joe P. Waltrip. Mr. White has been sheriff before and made a very efficient officer.

The penitentiary has 634 convict-inmates, 396 white and 238 colored. No one undertakes to say how many others there are who ought to be in the penitentiary.

KING KALAKAUA, of the Sandwich Islands, is in the United States. He will visit Kentucky for the purpose of investing some of his ready money in bloodstock.

LUCK is a fortune, with or without bait. Two years ago Arthur was disgraced, and now look at him. "An honest man is the noblest work of God," and we would rather be honest than be Arthur.

We acknowledge an invitation to attend the Ohio county Fair, at Hartford, beginning October 11th and continuing five days. Ohio county usually gets up a first class Fair. Their Secretary attended our Fair this year, and took lessons. *Burling Green Democrat.*

JOHN B. GAINES, of the Paducah Enterprise, has been revelling in the delights of a \$10,000 lawsuit, instituted by H. M. Morgan. It was settled last week by the payment of \$1 and costs by defendant.

IF Arthur is to make a change in the Cabinet, the sooner he does it the better. It will do the country no good to keep the present Cabinet several months and then remove them. Let us know the end.

JULIUS A. COLEMAN, formerly a lawyer of Henderson, has been sentenced to the Indiana penitentiary for two years for defrauding a life insurance company out of a large sum of money. His counsel brought in a plea of insanity but without avail.

IT is thought that Senator Lapham will resign and that Conkling will be elected in his stead. Conkling does not want a Cabinet position but he does want to be in the Senate. We cannot get the idea of our mind, however, that Conkling will Secretary of State.

GERMANY is the only country in Europe that did not send messages of condolence to this country on the death of the President. We cannot divine a reason for this treatment of the greatest nation on earth by Der Faderland. We may have an opportunity to play back at Germany some day.

LATE advices from Washington state that the entire Cabinet will be "repacked" by men in full accordance with the President's views. The appointments will be made during the executive session of the Senate which convenes next Monday. Grant is spoken of as the probable Secretary of State.

IT has been rumored that Dr. E. D. Standford in addition to being talked for Governor, has his eye on the Presidency of the Louisville & Nashville Railroad. The *Courier-Journal* characterizes this talk as "glib" and says the Dr. has his eye on a "better thing" although what that better thing is not stated.

It seems of a plot to assassinate President Arthur were in Washington last week. They were without foundation and created very little excitement. A letter was received by one of Conkling's friends warning the ex-Senator not to attend the State Republican convention on peril of his life, as the writer had determined to go to the convention to kill him. Conkling is not at all frightened, as he regards it as merely the effort of some one to raise a sensation.

THERE is a little country sheet published in Louisville which for impudence and brazenness cannot be beaten by any periodical in the land. It is as impudent as it is brazen, as is evidenced by this: "A private letter with a single editorial word will fix the average country editor." We do not know of any editor who has little enough regard for himself to be swayed by a "private letter," though that letter emanated from the editor of the *Post* itself. Suppose you try it on some of those papers who are in favor of Beck for Senator.

THE people of Georgia understand the proper mode of dealing with the Mormon question. They give notice to the missionaries that they will be arrested as persons "not having any visible means of support," and as being "obnoxious to the moral sentiment of the community." If the general government will not deal firmly with the Mormons, the local laws should be applied to them. They do not trouble us in particular but we cannot bear to think of tolerating an institution so positively opposed to every principle of morality and decency.

THE Court of Appeals has just rendered an important decision of special interest to managers of Fairs. Last year the President and Directors of the Warren County Fair Association were indicted by the grand jury and tried by the Circuit Court of Warren county for permitting a "wheel of fortune" to be set up and operated on their grounds during the Fair. The Commonwealth recovered a fine of \$250 against each of them. They appealed from the decision, but it availed nothing. On Thursday, the judgment of the lower court was affirmed by the Court of Appeals. *Exchange.*

THE Virginia campaign is very exciting. Three tickets in the field—the Republican, Readjuster and Democratic. The straight Democrats are confident of victory and are working hard to secure it. Mahone has been in New York raising funds for the campaign.

PANSON TAYLOR thinks that Guitau was a paid agent of Mormonism. Talmage has delivered himself of many absurd things, but this is certainly the wildest he ever thought of. Guitau, and he alone, is responsible for the deed. Talmage talks too much on things that he knows nothing about.

Mrs. GARFIELD and family are not now what could be called poor. The Garfield Memorial Fund has reached \$300,000 and over. Mr. Garfield held insurance policies on his life to the amount of \$52,000. Congress will donate a year's salary of the President, which will be another \$75,000 and his Mentor property was worth \$21,000. We could live several years on such a sum.

We have received requests from different sources that we publish the Greenback platform entire. These we must decline, although when we run out of anything else to publish we may do so, besides, if we publish it we do not know how long it will be until we shall be called upon to give place to another, as the purposes and platform of the Greenback party change with the moon.

A PROPHET of the 14th century predicts that the world will come to an end in November of this year, the frolic commencing on the 1st. He states that the men will become speechless on the 10th, and the women will die on the 13th. Nothing is said about the women losing the use of their tongues, and it is quite probable that we shall be forced to listen for two days to a racket that is more terrible than the crash of the spheres as they rush madly on to destruction.

NOTHING can turn up that the average American will not turn to advantage in a money point of view. Ten days before President Garfield's death a few dealers in the principal cities bought up all the mourning goods to be had, and held them in anticipation of his demise. When the time came they put up the price, and persons needing anything in that line were forced to come down with the money. The typical Yankee would believe that his business card to the house that conveyed his wife's remains to her last resting place.

GEN. ARTHUR is the first President who ever took the oath of office away from Washington city. He was "sworn in" at his private residence in New York and again at Washington. One of the Vice-Presidents, however, took the oath of office outside of the United States. Wm. R. King was elected in 1852 and went to Cuba during the winter. When the fourth of March came he was not well enough to be in Washington and he was sworn before the Consul-General of Cuba, Congress having passed a "check" act authorizing this step.

If a man has goods for sale, and is anxious to dispose of them, you may rest assured that he is going to sell them as low as possible. Then, if a man is anxious to sell his goods, he is going to advertise, and as the anxious man will cheapen and the advertiser is an anxious man, the advertiser sells cheaper than the man who does not advertise. The non-advertiser is a man who does not care very much whether you buy or not, and if you do buy you must pay his price which is a great way above that asked by any one else. A man who does not advertise is like a ferryman without a boat, his will is the best but he must wait for chance to furnish an opportunity. He must wait till an accident enables him to get his neighbor's craft. *Business men always advertise.*

THE only count that Guitau can secure is his brother-in-law, Mr. Seelye, a lawyer of no mean local repute. He tells him a very sensible man, and says that his only line of defense will be the plea of insanity. He does not seem to fear that his effort will not secure a fair trial, but on the contrary, thinks that any jury of intelligent, thinking men would render a verdict according to the testimony in the case. The poor wretch ought to have a fair trial, although when his trial does come it will be a mere matter of form, and according to justice and our idea of the propriety of things can lead but to one result—black-up, a drop, a shudder, a fifteen minutes' swing, an announcement of death by a leading physician and a sigh of relief from fifty millions of people that the most detestable villain that ever disgraced a fair trial and a man exists no more. A fair trial and a strong rope is what we ask for, and ninety-nine men out of every hundred will join us and ask for the same thing.

POSTMASTER GENERAL JAMES T. Spencer has resigned to President Arthur but was requested to remain in the Cabinet until the end of the executive session of the Senate which convenes on the 10th inst. James sought his willingness to remain that long, but told the President unequivocally that he expected to continue the Star-route prosecutions, and that if help were needed from the Administration he would demand and expect it. The President has signified his intention of continuing the investigation in the Postoffice Department, as also of instituting and carrying to the end investigations in the Treasury Department, where it is believed frauds of the most gigantic character exist. We pit no faith in his promises and advise people everywhere to accept everything with caution. Out of revenge and hatred of John Sherman, who was Secretary of the Treasury under Hayes and by whom the present President was branded as a dishonest man, he may proceed with the stirring up of the rottenness in the Treasury as he has promised. He will not do so, we are certain, from the same motive that actuated Garfield and his Cabinet, common honesty, for his wing and ring know nothing of it where self interest is concerned.

EVERY second man in Warren county is a candidate for some office, and the farmers of the county are ordering their right hands for shaking purposes.

FRANCE is in the same condition that we are as regards a cabinet. The entire ministry has resigned, but President Grevy has requested them to stay with him for the present.

THE coroner's jury in the Shelbyville railroad disaster returned a verdict of gross negligence on the part of the employees of the road. A large number of damage suits will be instituted.

A FLORIDA paper says that a man who would fail to provide the necessities of life for himself and family in that State, would starve if he were planted in the middle of Paradise.

IT has been decided that Garfield's remains will be allowed to rest in the cemetery at Cleveland until Gabriel decides that it is expedient to make a final call on the earth and the ex-inhabitant thereof.

PEOPLE are beginning to talk about a candidate for President in 1884. We want a candidate who is sensible enough not to write letters on the tariff and other subjects of which he knows little and understands less.

THE Louisville races were well attended last week. The racing was good and a vast amount of money changed hands. Five stallions—Longfellow, Ten Broeck, Lisbon, King Alfonso and one other, were exhibited at one time in the ring. Their aggregate value was something near \$500,000. Ten Broeck was the most popular, but King Alfonso was conceded to be the nos. one male.

EX-SECRETARY BOWEN is spoken of for a Cabinet position. Should Arthur appoint him we may look for bad things to happen. When he was Secretary he accomplished nothing but to increase the public debt in an unprecedented and unjustifiable manner and a few other things which the country has painful cause to remember and regret. If his appointment would be almost an outrage on the American people.

DISTRICT ATTORNEY CORNHILL, of Washington city, is to be removed. It is thought that he is in sympathy with the Star Route people and he would have the management of the prosecution. The objection have all been prepared by or for lawyers, and if he is not removed immediately he will have nothing to do but to present them to the District Grand Jury. Cornhill's treatment of Guitau has condemned him before the people.

AN exchange says that Guitau's hotel raised Garfield to the high spot in the esteem of the American people. This is a mistake. It was his merit and the nobility of his heart that raised him but the fatal mistake caused us to look up the merits that needed looking up and overlook the faults. The fact of his having a bullet in his body aroused our sympathy but could not give him credit that he did not possess.

THEY have a queer way of doing things in Colorado. Some days since a man was on trial for murder. It was almost plain that he was guilty but the judge decided that he should be set free. Three other similar cases were on the docket and the acquitted man was turned loose. He walked out of the court-house and was taken up by the crowd and hung and a delegation was sent to the court to inform it that if any more of the murderers were turned loose the judges and jury would be convicted, sentenced and hung in short order.

Free Schools, Etc.

That ancient body of Solons, our next Legislature, will have several important questions to consider, but the knottiest that we can think of now and one that needs attention most and one that has been much tampered with and little benefited is the free school question. A great deal of legislation has been spent on it and the result has been a jumble but what was sought for, to give us a school system that would produce the best possible results with the least possible outlay of money.

Public schools are a demonstrated necessity to a free government and no government, whether free or not, can be prosperous when no attention is paid to the enlightenment of the masses. A populace kept in the darkness of ignorance is always ripe for revolt and is easily led by designing demagogues into the blackest of deeds. With a proper education extended to all classes of people that which has recently robbed us of a great chief magistrate could never occur. In Russia ignorance is the rule and they a few months ago laid a sovereign in charge of the guardian angel of the grave, and to-day his successor troubles for his life, and there is a possibility—even a probability—that he will soon be forced to lay down his scepter at the behest of a stronger than the Czar of Russia, death. It has happened before and will happen again under the light of education's generally diffused. In this country it is different. We have no peasantry with wrongs real or imaginary to be redressed; we have no nobles with blue blood and extensive privileges; we have, in fact, none of the "pomp and character" of royalty. Here every man has it measurably in his power to become a leader of public opinion or of public sentiment if he provided he has the needed natural advantages of brains to apply and tact to apply them. There is no man who cannot better the law until he is proven otherwise, say he is as good as any other man. He is, really, if nature wills, the equal of every other man. Without general education and the training of each successive generation to habits of obedience to the law this country would soon sink far below the level of Russia.

firm and faithful to every trust no matter in what. We cannot murmur for death is inevitable and all must bow. Rank and power are leveled alike with the peasant, king and subject, priest and people, all must bend to the same God, and even one pure and bright and good and noble like the subject of this, one whose life was entwined about the heart-strings of relatives, associates and friends and parting from whom was almost death itself, must yield his young life to the destroyer.

Hayden was never connected with any church, but away with the false doctrine that creed can make up for character and the soulless church member alone has a passport for a better land.

Hayden Berryman is in heaven. If he is not, then life is a failure for all and virtue goes unrewarded save on earth, and God is more ungrateful than his creatures. Yes, he is in heaven if anything good is ever admitted there and if God's word be true nothing else can enter. He is there and happy.

To the bereaved family we tender our sympathy with the assurance that their sorrow can hardly be more than ours, for from our association with him and a thorough knowledge of his character through which nothing but the truest beauty was seen, we became attached to him and learned to love him as only one connected by the ties of blood or the holiest friendship can be loved. He was not a brother but we could not have loved him more, and this morning's air floats no sadder words than these: Hayden Berryman is dead.

Island Station Racket.

September 29, 1881.

THE health of the community is very good at present. The farmers are busily engaged in preparing ground for wheat, of which there will be a large acreage sown. Some few have commenced sowing. The rains have made the tobacco crop in this part of the country very late and have made it much better than was expected a few weeks ago.

Born, to the wife of Samuel Gross, on the 23d inst., a boy, weight, 10 pounds. The old lady is looking pretty good, some now on account of the absence of some of her prettiest girls. Those that are absent are Miss Elsie Bewley, who is visiting in Rumsey; Miss Hannah Shields, who is visiting in Mendenhall; and Miss Mary Humphrey, who accompanied Miss Blanche Nell to her home in Hopkins, where she will remain a short time. Miss Nell made many friends while on the island, who greatly regretted to see her leave. We hope you will soon repeat your visit. Miss Nell is looking very well. She has been on account of a slight cold, but she is now well and happy. Uncle Blant Shackett and wife took the train Monday for Meade county, where they will remain about three weeks with their old friends and relatives.

I understand that Mr. Dick Bat's is going to treat his horses with a new flight of stairs soon. B. J. Drake contractor. Miss Sissie Evely will open her school at the Island school house Monday. May your efforts be crowned with the greatest success is the wish of a friend. May peace and prosperity go with the HARRIS and HARRIS man now and forever is the wish of WILD BILL.

Central Grove Gravel.

September 30, 1881.

THE health of the community is so good at present as it was a few weeks past. Since the recent rains vegetation of every kind is looking nice and green and stock is looking well.

The farmers are very busy at present breaking wheat ground. It seems that nearly every farmer is preparing to sow a large crop this fall. It is generally believed that there will be much more than an average crop sown.

Mr. Phillip Harker has the best crop of tobacco in this part of the country. But few hogs will be fed for the market in this vicinity on account of the scarcity of corn.

Our school, which is being conducted by Mr. W. B. Miller, is progressing finely and everything bids fair for a good school this winter.

Mr. L. Berry Loney is teaching the school at Independence. I learn that he is having a good school and is giving thorough satisfaction. Mr. L. is looking like a "stop," said about the crops. I think there certainly must be a number one crop of babies over there this summer, as he gives an account of a birth every week.

Mr. Sylvester Southard, living near McHenry, is able to be out again this week. Mr. Southard has been confined to his bed for several weeks past with rheumatism. Hope the little sufferer will be relieved of her pains as soon as possible.

Misses Georgie Newton and Dora Smith, two very beautiful young ladies of McLean county, were visiting friends and relatives in this part last week. They were accompanied by Mr. Horace Smith.

The new house of Mr. James W. Loney, which I mentioned sometime ago, is still being worked on occasionally and prospects are good for a completion about the middle of October. Then look out boys, don't you know we'll have some fun?

To judge by the number of apple-cuttings and peach-cuttings that have been in this section of the country for the last six or seven weeks I should think the people would have plenty of dried fruit to eat this winter.

I understand that some unprincipled wretch has borrowed the new Bible from West Providence church and has failed up to now to return it. I expect the church would be thankful if the possessor would return it by next meeting and save further trouble.

Mr. James A. Hunter has a very fine mare which he paid \$100 for last spring taking the fatal disease.

Uncle Lee Wise came very near getting his eye knocked out last week while celling his house. He was driving a nail and the head of it struck him in the ball of the right eye, causing a very painful wound. The sight of the eye was not injured in the least. Squirrels are plentiful in these parts and Tom Southard and Press Goff are killing them by the dozens. Mr. Goff killed seventy-five in less time than two weeks and attended to a large crop of tobacco. Mr. Joe Baird, who bought land from Dr. J. T. Miller about four years ago and settled in this neighborhood, has his land go back into the hands of Dr. Miller. Mr. John Miller, who lost his eyesight about twelve or eighteen months ago, has procured himself a Newfoundland pup, which I think will prove to be of much service to him soon. He has been training him only two or three weeks and he can now go anywhere in the neighborhood without any trouble.

Death has again visited our quiet vicinity and has taken from our midst one of our best citizens, Mr. Alfred Ashley, Jr. He died Wednesday, Sept. 28, 1881, of fever, and his remains were interred in the Walton's creek graveyard on the 29th inst. Mr. Ashley was a good neighbor and was loved and respected by all who knew him. The bereaved family have my heartfelt sympathy in this, their sad bereavement. L. E.

Talk About Tompkins.

I knew a few things about Aleck Tompkins, who was killed by Metford in Butler county, on the 17th ult. He, and his father and brothers were desperate characters of Sumner county, Tenn. Alex. Tompkins was fresh from the Nashville penitentiary where he had served a term for horse-stealing, a brother is now in jail in Gallatin, Tenn., for seducing his niece, another brother is in the Nashville penitentiary for robbing a negro of money and clothing, two other brothers are under indictment for shooting with intent to kill and their father died in the penitentiary while serving out a term of two years for moonshine distilling. The father, five sons and two nephews are and have been hard characters. I knew them in Tennessee and know what I am talking about. G. E. S.

October 3d, 1881. Rockport Racket. Harry Jackson has sold his mill to a couple of Muhlenberg gentlemen. They have moved the same and are setting it up seven miles south of Greenville. Dr. W. B. Gardner has gone to seek him a wife.

The Green & Warren River packet will make one trip a week. The bridge carpenters are putting up a water tank near the depot. The present one near the bridge will be removed. Don't know what the Railroad men will do if they can't stop for their today.

S. H. Neafus, of Horse Branch, has gone to the Junction. He has taken an interest in the Sandusky House. The traveling public will find him to be an accommodating and clever gentleman. The Van Nort House at Rosine is a good place to stop at. The Post-master at Horse Branch should be put on a salary. His mail bag contained three postals the other day. N. H.

—Anderson's Bazaar.
For a long time young ladies and gentlemen have been purchasing their wedding outfits at Anderson's Bazaar, but the latest feature is that after purchasing their outfits they come to the bazaar to be married. The first sensation of this kind took place last Friday morning. Early in the morning two young gentlemen and ladies from the rural districts in buggies drove up to the Bazaar, when it was soon seen that a wedding was on hand. After procuring license and minister the ceremony was performed in the presence of the customers, clerks and a large number of the citizens who had gathered to witness this novel marriage. The contracting parties were Joseph Burgess and Miss Clarissa Stevens. Attendances—Marion Burgess and Miss Stevens, sister to the bride. Rev. J. S. McDaniel tied the knot in a very solemn manner. It was hard to tell which seemed the happier, the groom or the proprietor of the Bazaar.

—Ladies!
Please send me your address and I will forward to you, free of charge, E. Butterick & Co's catalogue illustrating all the new European and American fashions. JOSEPH ALLEN, 7-14-17

Rescued from Death.
The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says, "In the fall of 1876 I was taken with a violent bleeding of the lungs followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of Dr. Wm. Hall's Balsam for the Lungs. I languished at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when, to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and today I feel in better spirits than I have the past three years.
I write this hoping you will publish it, so that every one afflicted with diseased lungs will be induced to take Dr. Wm. Hall's Balsam for the Lungs and be convinced that consumption can be cured. I have taken two bottles, and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared, and I shall soon be able to go to work." Sold by druggists. 7-8-1y

A Hummock's Wild Way.
An Illinois exchange feels called to thus deliver itself: "His hummock swung loose at the sport of the wind," and tumbled the Hon. J. S. Irwin on his head, and but for the application of St. Jacobs Oil he might have gone "where the windline twined." Even so, dear *Hummock*, many others have gone who failing to use the Great German Remedy in time, for their rheumatism and other dangerous diseases, "have paid the debt of Nature." Rub is our motto.—(Cleveland Ohio Herald.)
